

Almac Group is a group of established businesses at the forefront of the Pharmaceutical industry. Our Company is a recognized global knowledge-based leader for the research, development and delivery of pharmaceutical services. Almac Group's services extend from drug discovery through all areas of clinical trials to the commercialization of pharmaceutical products. Our commitment to Discovery, Development and Delivery in conjunction with our long term partnerships with the majority of the world's leading pharmaceuticals guarantees a secure future for everyone.

We are currently looking for a **Financial Controller** for our Souderton, PA location.

To direct the global financial and commercial operations of the Almac Clinical Technologies worldwide business and to develop the corporation's financial control procedures and systems in partnership with heads of finance in the other Almac companies.

Responsibilities include but are not limited to:

- Preparation of monthly management accounts for both Almac Clinical Technologies, LLC and Almac Clinical Technologies, LTD and all related reporting.
- Preparation of annual budgets for both entities as well as regular forecasting, reporting against those budgets and forecasts, as well as driving actions necessary for the business to achieve desired results.
- Maintenance and development of the financial control environment in Almac Clinical Technologies entities worldwide.
- Preparation of year end statutory accounts for audit, including tax versus book adjustments and IFRS to US GAAP compliance adjustments
- Manage the pricing model for the business, including participating in discounting arrangements and contract negotiations as necessary. Work with Worldwide Business Development management to optimize sales activity.
- Management of working capital and cash management, including management of exposure to currency fluctuations.
- Work with other Controllers and external tax advisors to insure that the business minimizes its tax liability and maintains compliance with all worldwide tax regulations
- Direct line management of worldwide Clinical Technologies accounting staff.
- Work with executive team to drive strategic planning, participating in all discussions and working with the executive team to create and maintain an effective business strategy. Primary responsibility for creation of all corporate and group communication and submissions around the strategic plan including headcount, capital spending and cash flow forecasts.
- Provide insight to all strategic partnership discussions, reviewing all potential deal structures and implications for the business.
